- PC Keyboard with 104/105 Keys
- Flat, Ergonomic Design
- Easy to Clean
- For 100% Flushing and Washing
- Inured to Immersion (IP68)
- Key Field with Drainage System

Features and Benefits

The AK-8000 FlushKey keyboard from Active Key is a modern PC keyboard with convincing qualities regarding cleanness at the work place:
The flat, sideways slant keys allow for easy cleaning. The keyboard can be fully rinsed and washed from all sides.
Best results are achieved by manual cleaning with a piece of cloth or a soft brush under rinsing water or in the sink. The AK-8000 can stay under water up to 30 minutes. Skin compatible detergents should be used for washing.
Drainage channels provide for quick discharge of spilled liquids (e.g. coffee).
The AK-8000 FlushKey helps you to keep your keyboard and work place clean.
